THE CHINESE IN CANADA. NEW YORK, January 23rd. The Times' special from Ottawa says: British Parliament for Yale, to-day presented a petition ing business men and employers of labouring men in the province. The petititoners set forth that the present tax of \$50, owing to the great restrictions imposed by the United States and neighbouring countries, is far too low. It furnishes little practical protection to the white labourer against competition as unfriendly as it is degrading. "An abundance of Chinese labour," says the petition, " means a scarcity of white labour. The condition of things i calamitous to the public. The National Zeitung gives a good deal of attention to the pamphlet of Colonel Stoflel upon the relations of France and Germany, and in the course of its comments says: " - Germany's rela-

tion to Austria after the battle of Sadowa was entirely different from her relation to France after the battle of Sedan. Forbearance with the triangle settled definitely an issue long in dispute, and Austria showed herself inclined to accept the result. Forbearance with France would. on the contrary, have been useless, for France did not perceive and would not recognize the difference that the union of Germany had made in Europe. For centuries Germany, parcelled into small states, had been the victim of reckless attacks of her Gallie neighbours, and, accustomed to easy victory over feeble enemies, France regarded the results of the great change only as an accident of the campaign. It is probable that in coming centuries, also, the only remedy against Gallie assaults will be for Germany to keep her military force at such a point that that alone may always guarantee the safety of the country. The question of the protection of Berlin is not so important as that of guardwhich ought never to exist between labour and ing Southern Germany against invasion."
